1. Introduction. Adolescent sexual and reproductive health (ASRH) comprises a major component of the global burden of sexual ill health. Although overlooked historically, international agencies are now focusing on improving ASRH and providing programmatic funding.

Adolescent sexual and reproductive health: The global

The development of a strong and stable sense of self is widely considered to be one of the central tasks of adolescence [1]. Despite the fact that identity development occurs throughout one's lifetime, adolescence is the first time that individuals begin to think about how our identity may affect our lives [2].
