Most of us last saw calculus in school, but derivatives are a critical part of machine learning, particularly deep neural networks, which are trained by optimizing a loss function. This article is an attempt to explain all the matrix calculus you need in order to understand the training of deep neural networks. We assume no math knowledge ...

The Matrix Calculus You Need For Deep Learning

We start with the one factor case. We will define the concept of factor elsewhere, but for now we simply view this type of analysis as an extension of the t tests that are described in Two Sample t-Test with Equal Variances and Two Sample t-Test with Unequal Variances.
