The origins of Palestinians are complex and diverse. The region was not originally Arab • its Arabization was a consequence of the inclusion of Palestine within the rapidly expanding Arab Empire conquered by Arabian tribes and their local allies in the first millennium, most significantly during the Islamic conquest of Syria in the 7th century.

11. Logic of Hypothesis Testing - Free Statistics Book

A race is a grouping of humans based on shared physical or social qualities into categories generally viewed as distinct by society. First used to refer to speakers of a common language and then to denote national affiliations, by the 17th century the term race began to refer to physical (phenotypical) traits.

Race (human categorization) - Wikipedia

The 23 countries covered in this chapter include nine of the 10 most populous countries in the world in 2010. In order of population, they are China, India, U.S., Indonesia, Brazil, Pakistan, Nigeria, Russia and Japan (Bangladesh, which ranks eighth, is not included).

Chapter 2. Aging in the U.S. and Other Countries, 2010 to

Populations. In statistics the term "population" has a slightly different meaning from the one given to it in ordinary speech. It need not refer only to people or to animate creatures - the population of Britain, for instance or the dog population of London.

In Chapter 2 we present evidence that scientific research in education accumulates just as it does in the physical, life, and social sciences. Consequently, we believe that such research would be worthwhile to pursue to build further knowledge about education, and about education policy and practice.

Richard Dawkins' second chapter is a rambling 43-page rant against theism. Instead of writing a real introduction about "the God hypothesis," Dawkins immediately launches into a long list of the supposed faults of Yahweh, including, "jealous and proud of it; a petty, unjust, unforgiving control-freak; a vindictive, bloodthirsty ethnic cleanser ...
