This video points out some of the bias that women scientists face, particularly when their work challenges the existing paradigm. Dr. Goodall was the first to observe chimps in the wild making and using tools, and this was a shock to those who had used tool-making as a defining property of humanity.

Bloomâ€™s Taxonomy. This taxonomy was originally created by Benjamin Bloom in 1956 to categorize a continuum of educational objectives. These objectives are described in terms of student-centered actions that represent the kind of knowledge and intellectual engagement we want our students to demonstrate.
