Albert Einstein's work on quantum mechanics is of major importance to information philosophy, because we depend on a limited indeterminism and an "adequate" or statistical determinism to explain the possibilities in an open future needed to create new information.

Albert Einstein - The Information Philosopher

The recent movie "Transcendence" will not be troubling the sci-fi canon of classics, if the reviews are anything to go by. But its central plot device "uploading" a human consciousness to a computer remains both a central aspiration of transhumanists, and a source of queasy fascination to the rest of us.

Your mind will not be uploaded " Soft Machines

ALERT: Welcome to the New FIRE web site. This will be the active FIRE web site and will eventually contain all material from 1999 to the present date.
