Different poverty levels. Poverty lines shown here include \$1 a day, \$1.25 a day, \$1.45 a day, \$2 a day (typical for many developing countries), \$2.50 a day (which includes a poverty level for some additional countries), and \$10 a day, which a World Bank report referred to if looking at poverty from the level of a wealthy country, such as the US.

Poverty Around The World " Global Issues

A global catastrophic risk is a hypothetical future event which could damage human well-being on a global scale, even crippling or destroying modern civilization. An event that could cause human extinction or permanently and drastically curtail humanity's potential is known as an existential risk.
