Myra Levine (a major influence in the nursing profession) set out to find a new and effective method for teaching nursing degree students major concepts and patient care. Levine's goal was to provide individualized and responsive patient care, that was less focused on medical procedures, and more on the individual patient's context.

Alanine aminotransferase (ALT) is an enzyme found mostly in liver and kidney cells. ALT is released into the blood when the liver is damaged. The ALT blood test is often ordered in conjunction with aspartate aminotransferase (AST) or as part of a liver panel to screen for and/or help diagnose liver disease.
