Epigenomics. What is the epigenome? What does the epigenome do? What makes up the epigenome? Is the epigenome inherited? What is imprinting? Can the epigenome change?

### **Epigenomics Fact Sheet - National Human Genome Research**

In demographics, the world population is the total number of humans currently living, and was estimated to have reached 7.6 billion people as of May 2018. It took over 200,000 years of human history for the world's population to reach 1 billion; and only 200 years more to reach 7 billion.

### **World population - Wikipedia**

The 1972 publication of Limits to Growth sparked a controversy that has yet to subside. This book argued that if population, resource use, and pollution kept growing on our finite planet, eventually economies would face environmental "limits to growth" with potentially dire consequences.
